IN THE SPECIFICATION:

Please substitute the paragraph starting at page 2, line 1 and ending at line 3, with
the following paragraph. An appendix shows the changes made hereto.

A2
--In addition, since communication is performed under the same communication
conditions under many circumstances, high communication efficiency cannot always be
ensured.--

Please substitute the paragraph starting at page 19, line 22 and ending at page 20,
line 8, with the following paragraph. An appendix shows the changes made hereto.

A3
--In step S409, in order to improve the communication efficiency of speech
recognition, the speech communication information creation unit 204 performs environment
adaptation for a table for the creation of communication speech information. A method of
creating a scalar quantization table of parameters of the respective dimensions which are used for
speech recognition by using the distribution of environment adaptive speech recognition models
will be described below. As this method, various methods can be used, some of which follow.
